INGREDIENTS

| Name  | Quantity                       | + | Quantity<br>2 |
|---|--------------------------------|---|---------------|
| Quinoa, uncooked                                  | 1 lbs.                         |   |               |
| Beverages, water, tap, municipal                  | 1 qt., 1 ¼ c., 1 tbsp., ⅞ tsp. |   |               |
| Kale, raw   | 5 lbs.                         |   |               |
| Garlic, raw                                       | ¼ c.                           |   |               |
| Vegetable oil, palm kernel                        | ⅓ c., 1 tsp.                   |   |               |
| Salt, table                                       | 1 tsp.                         |   |               |
| Spices, pepper, black                             | ¼ tsp. ground                  |   |               |
| Lemon juice from concentrate, bottled, REAL LEMON | ½ c.                           |   |               |
| Mustard, prepared, yellow                         | 2 tbsp.                        |   |               |
| Honey   | 2 tbsp.                        |   |               |
| Carrots, raw                                      | 1 pt., ½ c. chopped            |   |               |

PREPARATION INSTRUCTIONS

HACCP Process: #2 - Same Day Service

1. Rinse quinoa with cold water. Drain well.
2. In a large pot, combine quinoa and water, cover, and bring to a boil. Reduce heat and cover until water is absorbed.
3. Chiffonade kale and place in a large bowl. Add garlic and drizzle oil over kale. Using your hands, toss the kale and oil together until thoroughly combined and the kale is well coated in oil.
4. Divide the kale between 4 sheet trays, or 4 18 x 13 inch trays, spreading it out evenly over the entire pan. Cook for 10 minutes at 350° F.
5. In a large bowl, combine all other ingredients with the cooked quinoa, kale, and carrots.

Separate raw animal foods, such as eggs, fish, meat, and poultry, from ready-to-eat foods, such as lettuce, cut melons, and lunch meats during receiving, storage, and preparation.

Food prep areas, equipment, and utensils, to be used in recipe will be washed and sanitized prior to beginning the preparation and cooking.

Assemble all ingredients, utensils, etc. to be used in recipe within easy reach of prep area so that food safety can be managed more effectively as well as better control of contamination and cross contamination.

Remove products from storage using oldest pack date first. If frozen, keep product in original packaging and place in a pan(s). Place in cooler following proper HACCP storage guidelines to prevent cross-contamination.

CCP: Take and record on a temperature log all beginning temperatures of refrigerated foods before beginning the recipe.

Wash hands thoroughly before handling food, after handling contaminated food or objects, and before switching to another step where there is an opportunity for contamination. This applies as well to before and after glove use. Use clean pair of gloves when handling raw product. Replace gloves after handling any other object.

If a recipe contains a combination of meat products, cook the product to the highest required temperature.

CCP: Heat to 165° F or higher for at least 15 seconds.

Remove product from oven. Caution! Finished product is hot. Use oven mitts when handling product to avoid injury.

CCP: Place product in warming cabinet until served. Ensure that hot food is held at a temperature above 140° F.

Kale and Quinoa Medley - CACFP
